

① Voyagers of the Sea

Tuna and hammerhead sharks are just two of the many species of fish that spend their lives swimming through the vast open seas. In the donut-shaped tank you can see schools of tuna racing through the 2,200 tons of water.

② The Seas of the World

From tropical coral reefs to the icy waters of the polar regions, the oceans are as diverse as the creatures that inhabit them. This gallery displays a sampling of the fascinating marine life found in oceans around the world.

leafy sea dragon

③ The Shoreline

See if you can find the sea anemones and starfish hiding among the rocks in our recreation of the shore in Kanto District, complete with waves and tides.

Humboldt penguin

④ Penguins

In the largest display area in Japan, you can observe three species of penguins including Humboldt penguins and Rockhopper penguins. Comic on land, penguins display dynamic swiftness in the water.

⑤ The Kelp Forest

The gently waving fronds of the underwater kelp forest provide food and shelter to a rich variety of creatures.

⑥ The Sea of Tokyo

The 1,500 kilometers of ocean stretching from Tokyo Bay to the Ogasawara Islands are inhabited by a variety of sea creatures including mudskippers that crawl in the mud at ebb tide and butterfly fish that swim in and out of the coral.

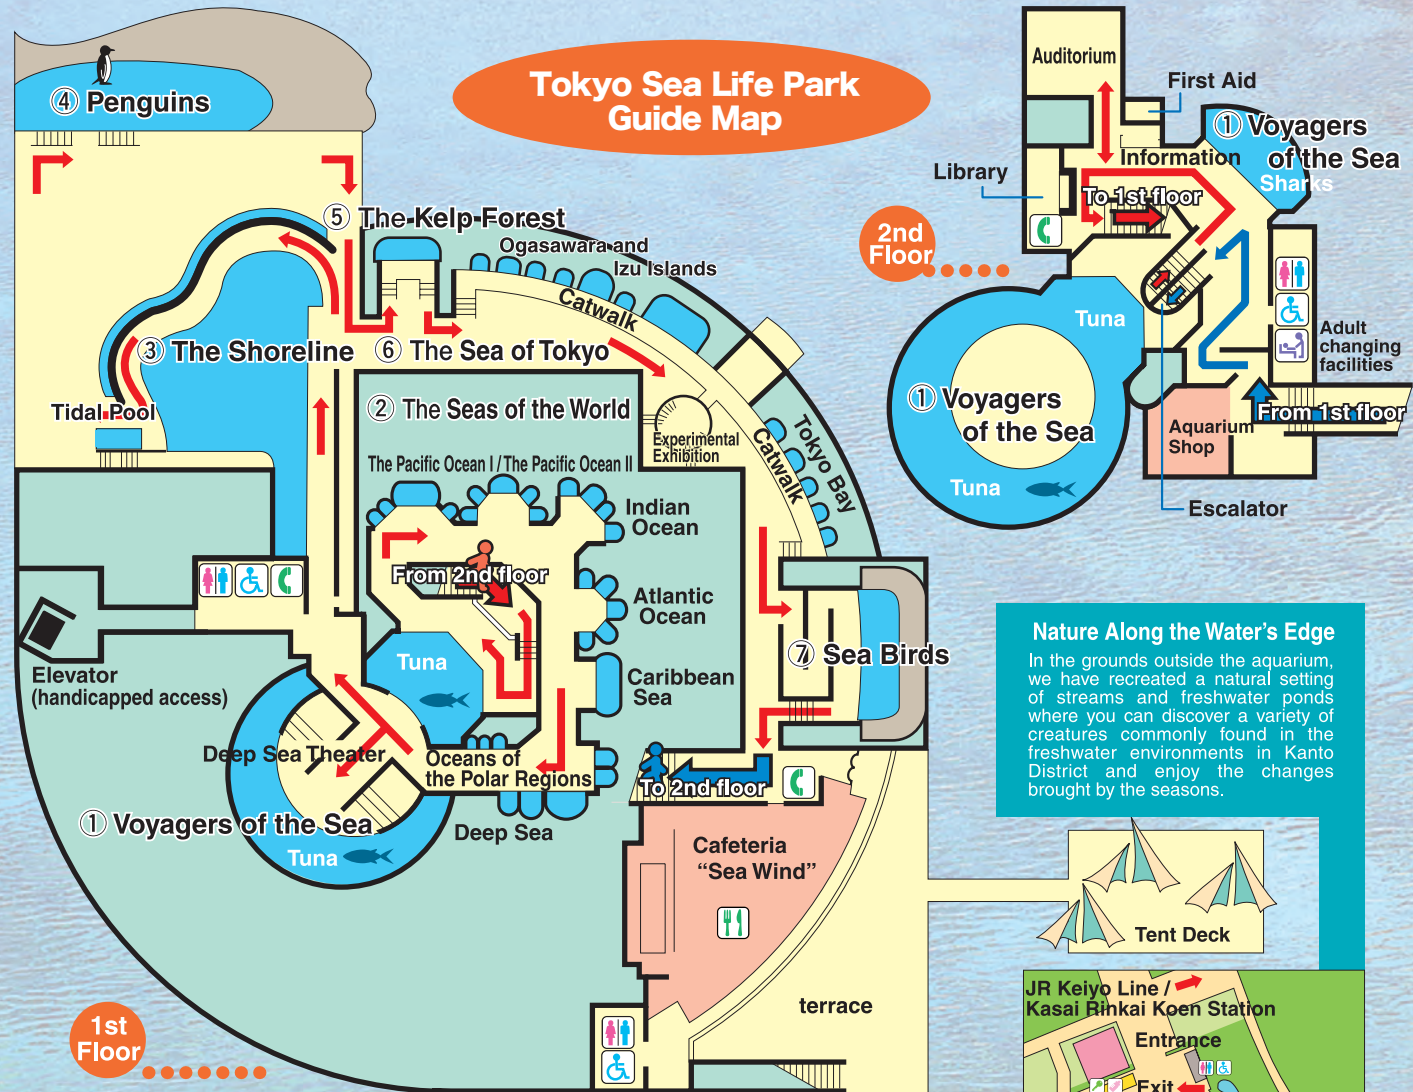

Tufted puffin

⑦ Sea Birds

Common murres and Tufted puffins are two of the species that live on the cold waters of the northern hemisphere. You can see them use their wings to swim beautifully through water.

Tokyo Sea Life Park Guide Map

Nature Along the Water's Edge

In the grounds outside the aquarium, we have recreated a natural setting of streams and freshwater ponds where you can discover a variety of creatures commonly found in the freshwater environments in Kanto District and enjoy the changes brought by the seasons.

Tidal Pool

Our staff will help you observe starfish and other tidepool creatures at close range.

Experimental Exhibition

See the mysterious glow of the seed shrimp at first hand in a 10-minuts show.

Feeding Times

See the Aquarium Guide for feeding times at the sea bird gallery and tuna tank.

Library

You can watch our original videos or use the interactive fish encyclopedia to learn more about the creatures on touch panel display.

Cafeteria "Sea Wind"

Enjoy the wonderful view of Tokyo Bay while dining in the cafeteria with seating for 250 indoors and 200 outdoors.
